CAREER OBJECTIVE

Motivated B.Tech Computer Science Engineering (AI & ML) student with hands-on project experience in AI applications, seeking opportunities to strengthen my skills in Python, data structures, and machine learning fundamentals while contributing to real-world problem-solving.

EDUCATION

- B.Tech Computer Science & Engineering (AIML) 2023 – Pursuing (3rd year)
-Brainware University
- 12th(Higher Secondary Examination) 2023 WBCHSE Board, 68.2%
- 10th(Secondary Examination) 2021 WBBSE Board, 83.57%

TECHNICAL SKILLS

- Programming Languages: Python, C, Java
- Web Technologies: HTML, CSS, Flask
- Databases & Tools: MySQL, Supabase
- Machine Learning
- Real world AI applications

ACADEMIC PROJECTS

- AI NOTES SUMMARIZER** **13/4/2026**
Built a web-based AI Notes Summarizer using HTML, CSS, JavaScript, and Grok API to generate concise summaries of educational content through an interactive user interface.
- SMART CANTEEN SYSTEM** **9/3/2026**
Built a Smart Canteen System using HTML, CSS, JavaScript, and Supabase with authentication, database integration, and digital food ordering features.
- SCHOOL MANAGEMENT SYSTEM** **12/2/2026**
Developed a full-stack School Management System using Flask and Supabase, focusing on backend logic, role-based authentication, database integration, digital study material management, and UPI payment handling with automated receipt generation.
- INDIC TRANSLATOR** **7/12/2025**
Built a multilingual translation tool using Python and Google Translate API with automatic language detection, aimed at simplifying translation of government forms and digital content for diverse users.
- SOLIVANA – Mental Health AI Chatbot** **19/9/2025**
Designed and developed an AI-based mental health chatbot that provides empathetic conversational support using LLM integration. Implemented privacy-focused interaction handling using Python, Flask, Ollama LLM, HTML, and CSS.

TRAINING AND WORKSHOPS

- Completed 4-week Samsung Innovation Campus training and certification.
- Participated in college-level hackathons, collaborating in teams under time constraints.
- Attended technical seminars and workshops related to software development and AI.
